## Fair trade unifies

### Trend platform with a long history

For more than 60 years now, Bazaar Berlin has been Germany's leading international consumer exhibition for handicrafts, designer articles, natural goods as well as fair trade and socially produced items. Bazaar Berlin stands for high-quality, country-specific individual pieces from around the world and all with special stories to tell.

Local and regional manufactured products as well as goods that have been re-used, recycled and upcycled are also part of the fixed repertoire.

### Consumer exhibition with a responsible mission

Social responsibility is an important concern of the traditional event. With the theme world FAIR & SOCIAL, Bazaar Berlin underlines the importance of conscious and socially just consumption. This exhibition area combines both fair trade goods from international companies and organisations as well products from workshops with a social background. Credibility is guaranteed through an independent expert committee, which determines the admission.
